## SHAKING THE BOTTLE.

### The Interior of the Santiago Bottle Churned With Lead.

#### Fifteen Hundred Projectiles Hurlled Against the Ships and Forts.

New York, June 7.—A special from Cape Haytien describing the bombardment of Santiago de Cuba on Monday says that the forts about the harbor are now a mass of ruins. The Morrois a shapeless pile of ruined masonry and, dismantled guns, and the Estrella battery is utterly ruined. This result, the dispatch says, was the work of ten American ironclads, which passed back and forth from Fort Cabrera on the west to Port Aguadores on the east of the harbor entrance, discharging their heavy guns as they steamed along, so that scarcely a yard of the coast escaped the heavy cannonading.

At Port Aguadores the forts recently constructed by Col. Ordenez, the famous artillery expert, were blown to dust, and Col. Ordenez himself was badly wounded by the flying splinters and debris. Capt. Sanchez and Lieut. Yrizar, artillery officers, were also wounded. Two infantry lieutenants, Garcia and Perez, and twenty-one privates are reported fatally wounded. Later in the day the American ships moved closer toward the mouth of the harbor, where the old cruiser Reina Mercedes had been discerned attempting to place explosives about the hull of the Merrimac to blow her to pieces and clear the channel.

A 13-inch shell from the Oregon landed squarely abaft her pilot house and tore all her upper works to shreds: Her "Second Commodore," five of her sailors, and a marine were killed. A Second Lieutenant of the Reina Mercedes and sixteen of her seamen were very seriously wounded.

A perfect shower of shell and shot fell upon and around the old cruiser and she was so badly damaged that her crew, by order of Admiral Cervera, abandoned her and sought the shore for safety.

About noon, according to the Haytien dispatch, a landing party of American marines, near Daiquiri, was attacked by Spanish infantry and a squad of cavalry. The insurgents were posted in the neighborhood, and with the aid of the marines successfully took up a position, holding it and later making it a base from which they operated. The Spanish force was defeated with heavy loss and driven back toward Santiago, leaving their wounded behind them.

The Americans are entrenched near Daiquiri and are landing heavy guns, preparatory to moving them towards Santiago and laying siege to the city.

There is a panic in Santiago. The residents who can leave are fleeing to the country, joining the insurgents, are doing anything to get away from the certain destruction that now awaits Cervera's fleet and the forces of Pando and Linares.

### Troops Off For Santiago.

#### Start for Sure This Time.

Washington, D. C., June 7.—(Special.)—The last of the first expedition to Cuba left Tampa last night, forty-six transports carrying 26,000 men with horses, wagons, artillery siege guns and all necessary equipments and supplies for a campaign of six months. Gen. Shafter is in command. Twenty thousand troops went from Tampa and 6,000 under Gen. Carpenter from Mobile. It will take them about seven days to get around to Santiago de Cuba, and goodness knows how long they will be unloading, because there are no docks. Everything will have to be hoisted into lighters or launches and towed through the surf to land.

Forty-six transports, composed of the best vessels under the flag of the merchant marine of the United States, attended by a squadron of gunboats to protect them, make a beautiful fleet, and one that has never before been witnessed on our coast, and, it is believed, an invincible armada. It is not probable that all of the ships went together. They were probably in groups of five or six, and perhaps they straggled along when it was safe for them to do so. There are only a few small Spanish gunboats on the Cuban coast that could do them any harm, and those are undoubtedly cooped up in the harbors by our blockading squadrons.

The first ship of the expedition started several days ago, and if we are able to believe the dispatch from Cape Haitien and Kingston the troops are already being landed on both side of Santiago, near Punta Cabrera to the west and Aguadores to the east. The advance guard was cavalry and left about a week ago. The tail-enders of the expedition carried heavy guns and other artillery.

#### Storehouse Burglarized.

The general merchandise store of Mr. L. B. King, a prominent merchant doing business at Pon, six miles northeast of the city, was burglarized Monday night and merchandise amounting to \$800 was stolen from the house.

The thieves seemed to have a particular weakness for cheese, crackers and groceries. A few pairs of shoes were stolen. No clew as to the identity of the burglars has been discovered. Entrance was gained through a rear window.

### ORATORICAL DEBATE

Careful consideration was given by the judges to the excellent efforts of the young men and due credit bestowed upon them and upon those

to whom they owe their thorough instruction.

In the opinion of the judges Mr. Pride was entitled to the medal, and it was so awarded. Half an hour of pleasant social intercourse followed the conclusion of the formal programme.

A number of delightful musical numbers were rendered during the evening.

### NEWS FROM THE THIRD.

Health and Spirits of the Hopkinsville Coys are Excellent.

Frank Prowse writes his father from Camp Thomas, at Chickamauga Park, that the boys of the Third Regiment are all doing very well and are as content as possible under the existing conditions. The health of the Hopkinsville boys is excellent. They are in hopes that the regiment will be ordered to the Philippines or to Tampa very soon. The regiment has received its uniforms and equipments and has reached a most satisfactory degree of perfection in the manual of arms and the field evolutions. The Third Kentucky is looked upon by the most distinguished officers as one of the finest bodies of men in camp.

### The Later News Confirms American Success On Land and Sea.

#### More Defeats For the Spaniards in the Philippine Islands.

Washington, June 7.—(Special.)—The latest reports received at the naval and state departments before the close of the offices this afternoon all tend to confirm the news of a brilliant engagement at Santiago.

There was heavy fighting on land in the rear of the city and on the heights where the insurgents and American forces engaged the Spanish while the American war ships dropped shells with marvelous precision among the ships of Cervera, and played fearful havoc with heavy missiles among the fortifications protecting the entrance to the harbor.

### Dewey Continues To Direct

#### Operations At Manila.

Washington, June 7.—(Special.)—A dispatch to the London Times from Manila which has been cabled here referred to the fighting of May 30 and June 1, says the Spanish loss in killed, wounded and prisoners was heavy, but that the most serious feature of all for Spain is the defection of hundreds of native auxiliaries. The dispatch says:

"One native regiment deserted after killing its officers and massacring a company of Spanish infantry, and rebels and ex-rebels on both sides have been shot because they were suspected of treachery to their respective generals. The Spaniards are endeavoring by every means to win over the rebels, who are attracted by promises of pardon and high offices. But Aguinaldo's attraction is stronger. He is their leader and has completely surrounded Manila by cutting the railroad and holding the rivers by which food had previously reached the city. If the city is not starved into surrender, the rebels may carry it, having now an increased number of rifles and field guns.

"Aguinaldo's treatment of the Spanish prisoners is exemplary. Few excesses are reported, and this is attributed largely to the influence of Admiral Dewey, who is in communication with the insurgents.

### The Story From the Other

#### Side.—Seven Were Killed.

Havana, June 7.—Details from Spanish sources received here today of the bombardment of the forts of Santiago de Cuba, say the warships of the United States fired about 1500 projectiles of all kinds. This fire, the Spaniards add, was answered by Morro castle and the batteries at Socapa and Punta Gorda. At noon, it is added, another bombardment began against Aguadores, east of Santiago de Cuba, the firing lasting one hour. Both attacks, the Spanish assert, were repulsed.

Morro castle is admitted to have been damaged, as was the "exterior headquarters built during the time of peace at Cayo Smith," and, in addition, the Spanish cruiser Reina Mercedes is admitted to have been "slightly damaged."

The Spanish commander at Santiago reports that the American fire did not dismount one piece of artillery, and he says that nine of the American vessels "disappeared from sight before dark."

The Spanish army losses, according to official reports, are one soldier killed and one chief, four officers and twenty-one soldiers wounded.

The Spanish navy losses are reported to be one chief and five sailors killed and one officer, and twelve sailors wounded.

reported complete as follows:

Geo. W. Embury, John Bennett, J. H. Sergeant, Henry F. Moore, C. H. Huffman, Martin W. Davis, Julien Boxley, Louis Massie, J. W. P. Long, James McGinley, J. T. Steger, J. M. McLaughlin, T. T. McKnight, Isaac Leavelle, T. S. Winfree, David Smith, Jas. G. Yancey, W. M. Bronaugh, R. M. Whitlock, Jas. Phelps, J. C. Harlan, Geo. R. Grant, J. W. Riley, W. M. Butler.

#### Resigns His Position.

Harry Frazier, chief engineer of the Chesapeake and Ohio road, has tendered his resignation and sever-

ed his connection with the company. Mr. Frazier's headquarters were at Richmond, Va. His successor has not as yet been appointed, but will be very likely in a few days. Mr. Frazier, who is quite a young man, is a young man of marked ability. Before he was appointed chief engineer he was with the company as assistant chief engineer. Mr. Frazier was formally Division Superintendent for the L. & N. with headquarters at this place and has many friends in the social and business circles of Hopkinsville.

The new bonds are to be tentatively at 3 per cent interest.

Admiral Camara should come on over with that Cadiz fleet and let us take his picture.

President McKinley may send Col. Bryan 6,000 miles away, but the war will hardly last until 1900.

Capt. Miller, of the Merrimac, has been kept busy every since explaining why he didn't do it himself.

Up to the hour of going to press this morning, Gen. Miles had not soiled his new uniform with powder stains.

The steady decline in wheat continues, another drop of three cents being the feature of yesterday's business.

W. F. Harity has been removed as National Democratic Committeeman from Pennsylvania, and J. M. Grilly elected in his stead.

The Atlanta Constitution announces that "the end of Cervera is in sight." There will be no kicking at this—Glasgow Times.

In spite of the frequent rumors that the 1893 cut in the wages of L. & N. employees would be restored July 1, no definite announcement has yet been made. The railroad men are, however, very hopeful that the restoration will be made.

The humble home of Lieut. Hobson's widowed mother at Greensboro, Ala., is mortgaged and the Mobile Register has started a popular subscription to lift the mortgage.

A cadet at Annapolis who was interviewed by the Chicago Record's staff correspondent says Hobson was always considered cranky and eccentric with "wheels in his head." Hereafter he will have them in his pockets.

Now that Spain's ships are no longer to be considered as factors in the war, the proposition to send the Flying Squadron to the Canaries and perhaps to Cadiz is being seriously entertained at Washington.

The banks will all be caught by the decision for taxes, that will in Hopkinsville be increased from 75 cents to about \$2.50 for all purposes, running back to the adoption of the present constitution in 1891. To many of the cities of the State the back taxes will amount to many thousands of dollars.

Lieut. Carraza's brilliant exploits for Spain were brief and altogether harmless. His amateur spies were promptly detected and arrested and the Lieutenant himself now finds his personal liberty somewhat restricted. Go home, young man, and stay there.

Admiral Cervera's courtesy to the Merrimac prisoners has done much to alter the universal opinion that all Spaniards are destitute of gentlemanly instincts. Cervera is a thoroughbred and when we capture him we will feed him on the same grub that our great Gen. Miles fattens upon at the Tampa Bay Hotel.

In our advertising columns will be found an announcement of Ex-Senator John G. Ingalls' forthcoming book, entitled "America's War For Humanity." Canvassing agents will find it a book of remarkable interest, and certainly of extraordinary salability. The history of the war is told in picture and story, and in a way that characterizes the brilliant pen of Senator Ingalls. In narrating the incidents of this war he finds grand scope for his superb descriptive and analytical powers. The theme is worthy of the author, and the author is worthy of the theme. It is published by N. D. Thompson Publishing Co., of St. Louis, Mo. It will be a monumental work that will not only be everywhere read, but it will be a monument to his genius that will outlive in history his brilliant senatorial career. The subscription book trade and the canvassing agent are fortunate in the fact that an author of such rare ability has been enlisted in its interest.

## THE KNOCK-OUT BLOW.

Admiral Cervera is completely bottled in Santiago harbor. His fleet is innocuous to the United States and useless to Spain.

But Havana is untouched. Havana is the center—the very core—of Spanish power in Cuba. While Havana holds out Spain has hopes and the Spanish power has a stronghold in Cuba. The Cuban cause will not be won until Havana is taken.

The smashing of Havana's fortifications would strike Spain's vital spot. It would be a death blow both in a physical and moral sense to Spain's claim of sovereignty in Cuba.

Every day renders the work of reducing Havana more difficult. It is estimated that the defenses are 50 per cent. stronger now than they were when the war was declared. The Spaniards are energetically working to increase their strength. Why not smash Havana at once? Why give the Spaniards time still further to improve their position? The Spaniards can do the work. Why not deliver the knockout blow and end the war?

On to Havana!—Post Dispatch.

## ONLY TWO BATTALIONS.

Less Than a Regiment of the New Call Soldiers.

Frankfort, Ky., June 7.—Gov. Bradley has received a letter from Secretary of War Alger, in which the protest of the Kentucky officials against the reduction of Kentucky's quota is overruled.

The Secretary directs that the troops raised in this State under the second call be comprised in two battalions instead of a regiment, as asked.

The most significant result of this order is the shake-up caused in the official slate made up by the governor when a full regiment was completed. Congressman Colson and Hon. H. D. Murray, who would have been made colonels, will now have to be satisfied with majorships, while others slated for minor places may lose out altogether.

Governor Bradley and staff left today for Chickamauga, where they go to visit the Kentucky soldiers now there. They will stop at Lexington to see the first regiment, which is still there.

## Obituary.

June 4, David Beard, the son and only child of William E. Graves, died, aged five months and ten days. In this instance, as in numerous others, it would seem that the early victims of cholera are the choicest flowers that bud and bloom in the garden of mortality. But Heaven would not be Heaven without little children there. Jesus says, "for of such is the Kingdom of God."

"This lovely bud, so young and fair Called hence by early doom, Just came to show how fair a flower In Paradise would bloom."

Funeral services by Rev. Arthur Roberts; assisted by Rev. W. K. Piner, at the house Sunday, June 5.

Mr. and Mrs. Chas. Brocker entertained Friday night at their home at Fourth and Crittenden street in honor of Miss Virginia Ritchie Burnett, of Hopkinsville, and Miss Jean Moore Carter, of Aberdeen, Mississippi. The style of the entertainment was a library party and was as unique and interesting as it was pleasant and enjoyable.—Owensboro Inquirer.

Gov. Halcomb has formally announced the officers of the Third Nebraska regiment: W. J. Bryan, Colonel Commanding; Gen. Victor Vignaud, Lieutenant Colonel; Dr. D. R. Mercer, Surgeon. The date of muster and final assignment of the regiment awaits orders from the War Department. It is believed Col. Bryan will be assigned to duty in the Philippines, as far from the United States as possible.

The rebels are closing in on Manila and the city is likely to fall into Dewey's hands before the troops arrive.

## A HERO DEAD.

The Commander of the Olympia Dies at Sea.

Capt. Charles V. Gridley, commander of the cruiser Olympia, and one of the heroes of the brilliant victory at Manila, is dead. The announcement of his death was received by the navy department in a cablegram from Paymaster Galt, of the navy, dated at Kobe, Japan, June 4, and directed to Secretary Long. The dispatch contained this simple statement: "Capt. Gridley died to-day. Remains accompany me on the Coptic."

Capt. Gridley is the first American officer of great prominence whose death is a direct result of the existing war with Spain. As the commander of Admiral Dewey's splendid flagship and one of the admiral's chief advisers, Capt. Gridley achieved distinction at the battle of Manila bay and added to his previous laurels by winning high praise from his superiors in the service for distinguished gallantry and ability. It was not known for several weeks after the engagement that Capt. Gridley had suffered from it and even now the precise nature of his trouble is not disclosed. Upon the arrival of the Zafiro at Hong Kong on May 20 the navy department was notified that Capt. Gridley had been condemned by a board of medical survey and "invalided" home.

## CLOSING OF SCHOOLS.

Brilliant Programme Will Be Rendered at Tabernacle,—Seats on Sale.

More than the usual interest attaches to the annual commencement exercises of the city schools this year, which will be held at the tabernacle Thursday evening. The programme will be decidedly an innovation in this line and a departure from the traditional order of such entertainments. That it will be an artistic success is guaranteed by the names that appear upon the programme and the teachers who have had direction of the rehearsals.

The sale of seats will begin this morning at Elgin's drug store. There will be no seats reserved save one section of the auditorium for the families of the several graduates. The general admission will be 15 cents. The doors of the tabernacle will be thrown open at 7:30 o'clock and the earliest arrivals will have choice of the house in the matter of seats. At 8 o'clock the exercises will begin.

On Friday morning the classes in each room will have exercises consisting of songs, dialogues and recitations and to these exercises the parents and families of the children are invited. On this day the schools will be formally closed, to reopen on August 29th, the Board having fixed upon this date in order that the schools may close earlier next year.

## WAS HONORABLY ACQUITTED.

Spies Carranza and DuBosc Sued by Detective Kellert.

Montreal, June, 7.—Detective Kellert, who was arrested on complaint of the Spanish Spy, Lieut. Carranza, that he had stolen a letter from Carranza's house the other day, was honorably discharged by Judge La Fontaine. Lieut. Carranza, the Spanish spy, failed to make out his case against him. Kellert's lawyer, R. A. Green-shields, then went to work drawing up the papers in an action for \$25,000 damages for false arrest on his client's behalf. It is planned to take the action against Carranza and DuBosc jointly and severally. A capias is to be asked for to prevent their leaving the city and a garnishee is to be placed on all funds found to their credit in the banks.

To this end he has called the Co. to meet at the armory tonight at 7:30 o'clock and bring with them all arms accoutrements and uniforms belonging to the State. ## Will of Judge Morrow.

The last will and testament of the late Judge Thomas J. Morrow was admitted to probate in the Clerk's office yesterday.

The date of the instrument proper is July 3, 1895. All of his property, real and personal, is left in fee simple to his wife.

A codicil bearing the date of Sept. 23, 1897, alters somewhat the provisions of the will, giving to Mrs. Morrow absolute control of all property during her widowhood. He desires his farm to be her home and

the home of their children until the youngest child shall have attained the age of seventeen, when with the consent of all heirs the property may be sold, the widow taking one third and the balance to be equally divided between the children. There are several minor bequests. His wife is made executrix without bond.

## Commissioners Meet.

## KILLED THE FISH.

Drainage From Gas Factory Fatal to the Finny Tribe.

At the last council meeting it will be remembered that the Gas Company was instructed to flush the sewer on Fourth street into which the refuse of the Gas factory drains. The residents of that vicinity complained that the refuse accumulated in the sewers and was a great nuisance as well as very dangerous to their health.

Monday afternoon the sewer was flushed and the foul odor arising from agitating the stagnant matter could be detected at great distance. Yesterday it was observed that hundreds of dead fish were floating on the surface of the river in consequence of the deposit having been turned into the stream.

These dead fish were noticed from the first ford where the sewer empties down to a point below the bend.

## I. C. Improvements.
